ABOUT ME

Passionate problem solver, dedicated to leveraging my analytical mindset and creative thinking to tackle challenges. Effective team player with a strong drive to learn and contribute. Committed to delivering innovative solutions that make a meaningful impact.

WORK EXPERIENCE

Full Stack Developer

«ПП Ханц»

04/2022 - 06/2022

I undertook the exciting challenge of creating a dynamic and visually appealing web gallery, showcasing my expertise in both front-end and back-end development. My role encompassed every aspect of the project's lifecycle, from conceptualization to deployment.

Acquired skills:

Team Collaboration | Collaborative Problem Solving | Conflict Prevention

EDUCATION

Taras Shevchenko National University of Kyiv

09/2021 - Present

Acquired skills:

C# | Java | C++ | Software Testing | MySQL | MongoDB

PET PROJECTS

Turing Machine Simulator

Web application that simulates a Turing Machine.

[GitHub Repository](#) | [Website](#)

Tupper's Formula Calculator&Plot

Web application to work with Tupper's self-referential formula.
